Recording Past Footage in GeoVision

Steps:

1. On GeoVision, go to the top right menu bar and select the View log button.

2. Once you are in the View log you can select the date for which you are trying to view in the bottom left corner of the page. Thenn drag and drop cameras from the Content List into the view.

3. Then click on the Tool icon, the toolbar icon, then Save as Avi.

4. Then set the time frame of when you want to record, and hit the settings tab

5. In the settings, hit the 3 dots to name the file and select where you want it to be downloaded at.

Setting SetLocation C:Users\GeoVision\Desktop\File2022011700000000.av	×
